

CEN 134 Hw (Error Correction)

Problem. Specify each error in the code whether as syntax error or runtime error. Then please write the corrected code.

```
/ This program finds the positive divisors of 10
#include<stdio.h
int main(void){
{
int k=10,i=0;
while(i<k){
if(k%i==0){
printf("A divisor is found!");
printf("%d is a divisor. After division the result is %d \n",i,(k/i));
}
++i;
}
}
```

Homework Policies:

1. Please do not submit this homework and because it will not be graded. If you have any questions please see me or your lab. assistants (ask them for their office hours).

Asst. Prof. Dr. Orhan Dagdeviren
