

CEN 134 Hw (Basic C Function Design)

In this homework you are requested to write the function version of Hw1.

Problem 1. Write a C FUNCTION:

```
int is_prime(int n)
```

which returns 1 if n is prime, otherwise returns -1.

Homework Policies:

1. Please do not submit this homework and because it will not be graded. If you any questions please see me or your lab. assistants (ask for office hours) at the office hour that is announced on my web site.

Asst. Prof. Dr. Orhan Dagdeviren
